

FULL STACK WEB DEVELOPMENT

NAME : HARSH GUPTA

UNIVERSITY ROLL NUMBER : 2300290100118

CSE 3_B 2023-27 BATCH

PRESENTATION FOR MLSA

TECH STACK USED

- **HTML (HyperText Markup Language)** is the standard language for creating web pages. It uses tags to structure content.

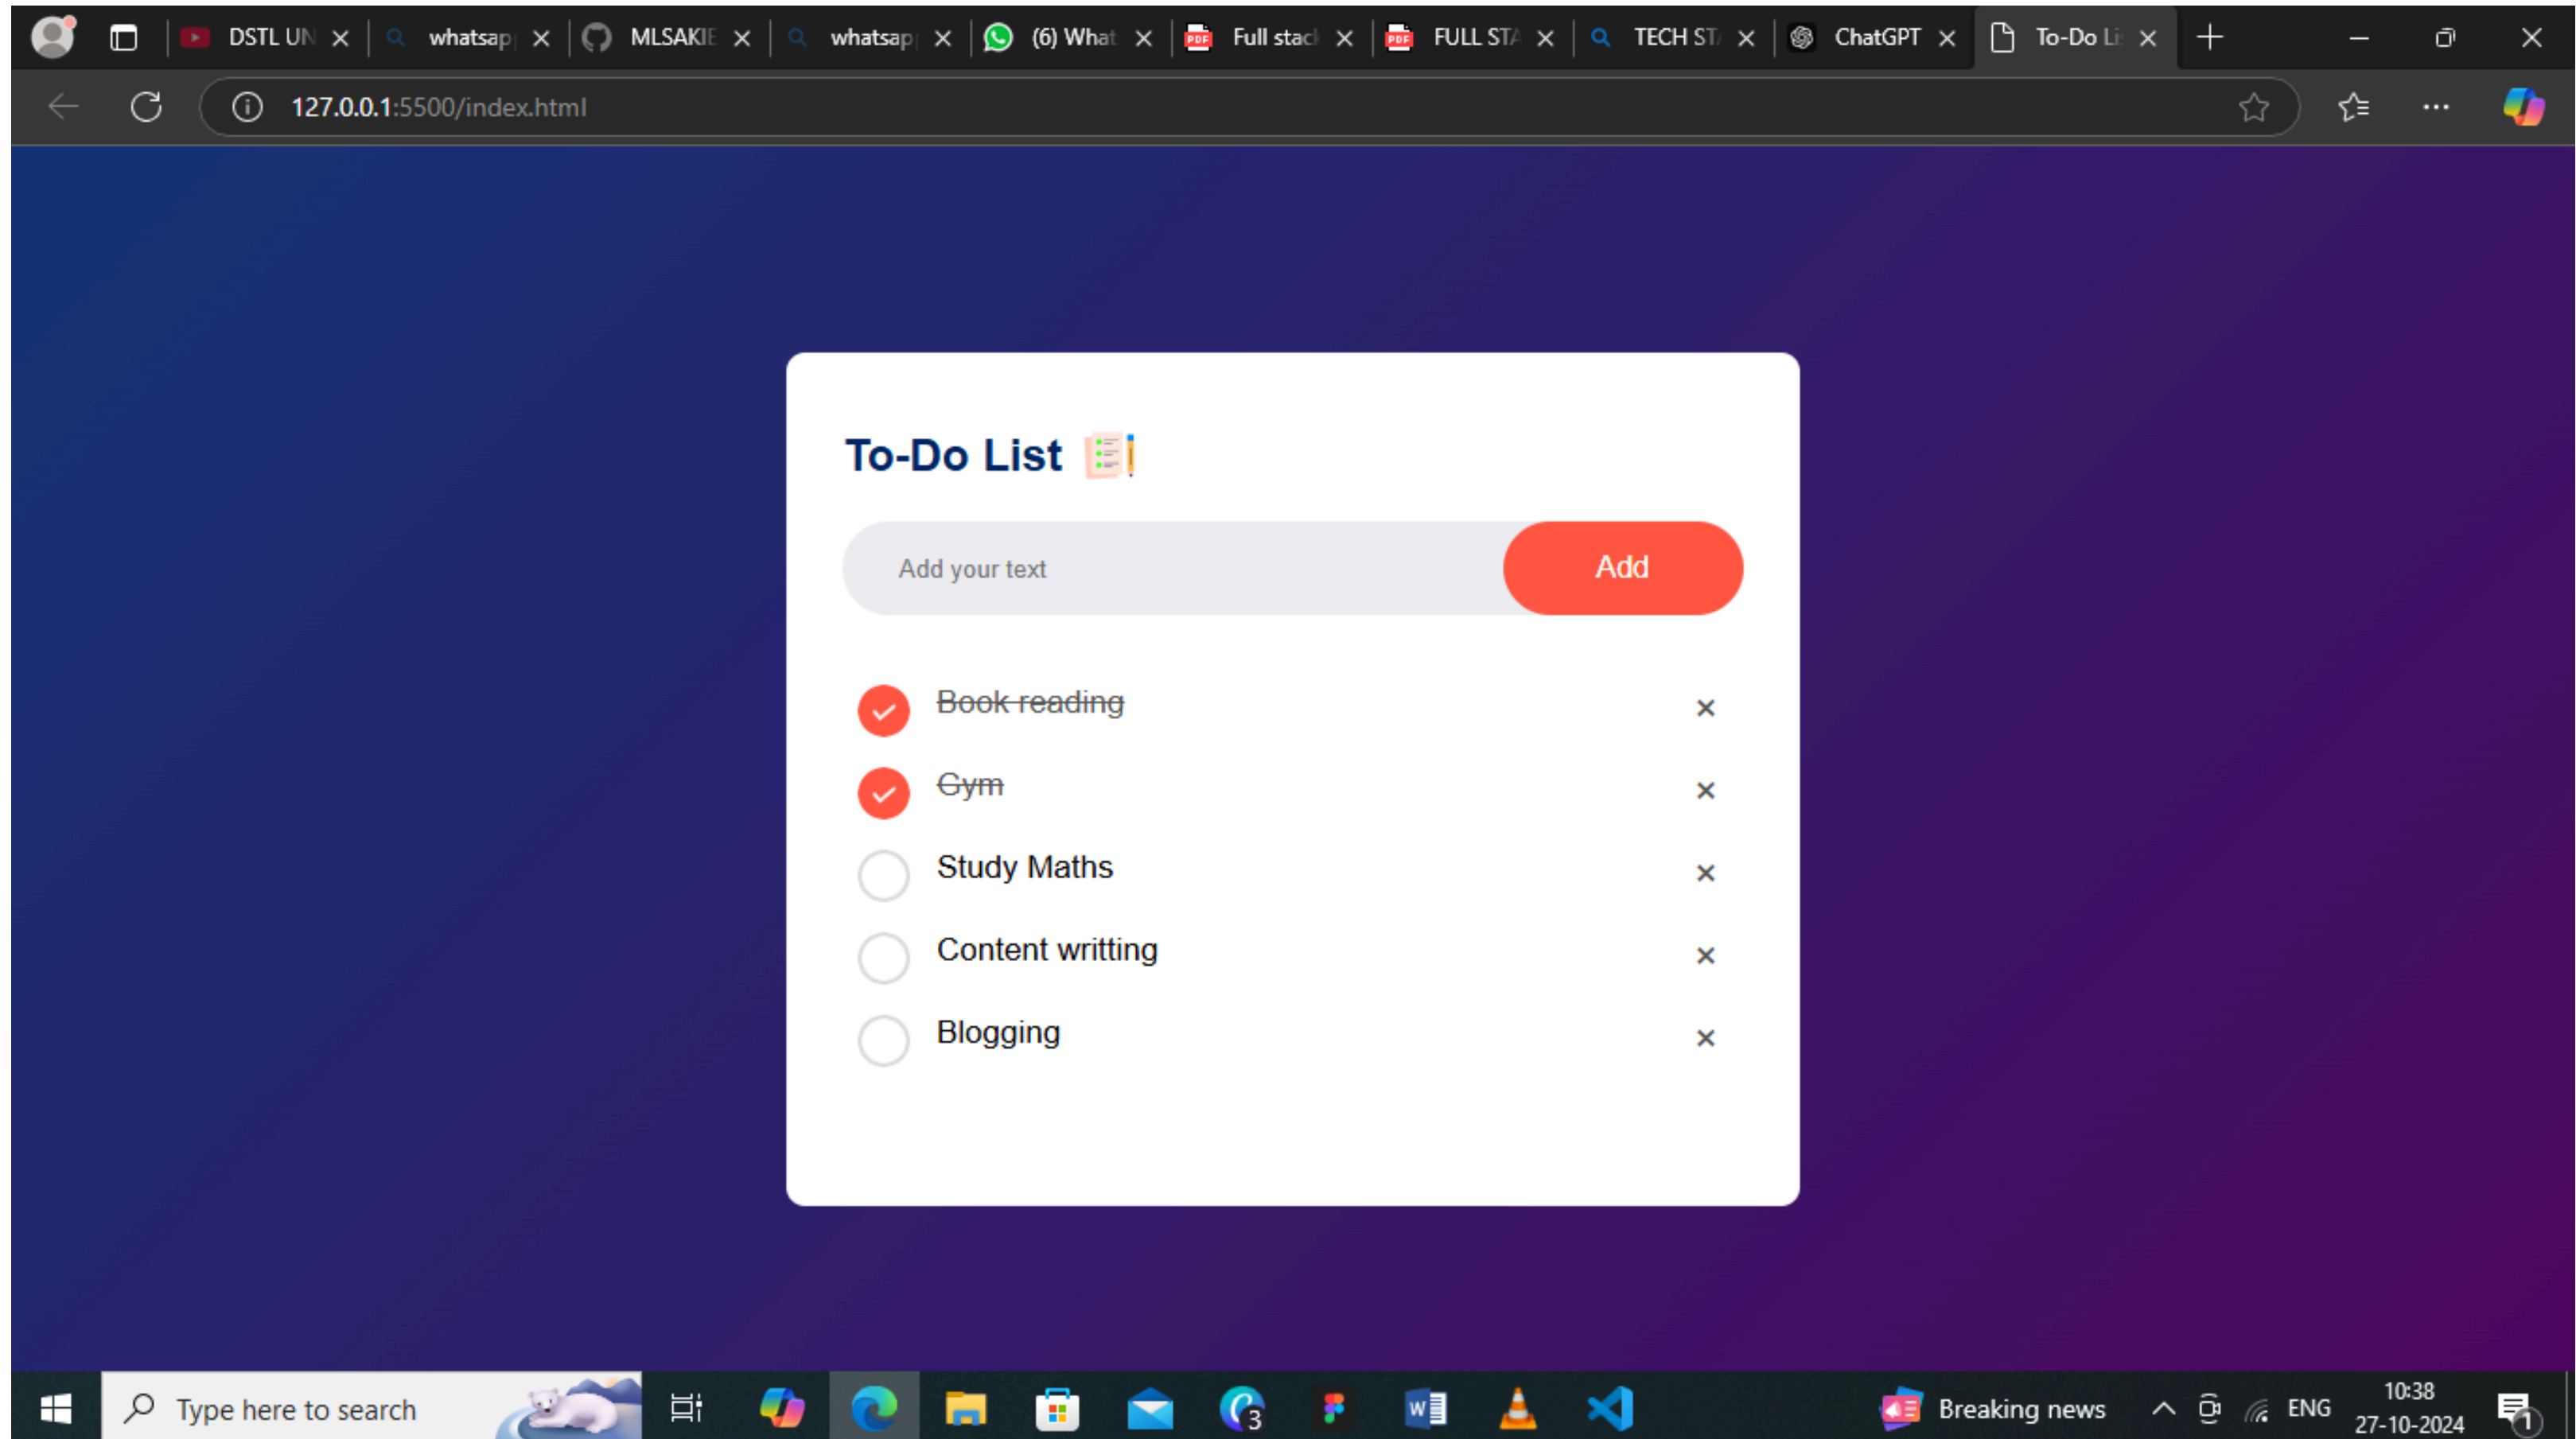

- **CSS (Cascading Style Sheets)** is a styling language used to define the look and layout of HTML elements on a webpage.

- **JavaScript** is a versatile, high-level programming language primarily used to add interactivity and dynamic content to websites.

Easy Project : To-Do List Application Using Javascript

Feature's-Added in To-Do List Web App! Built with JavaScript

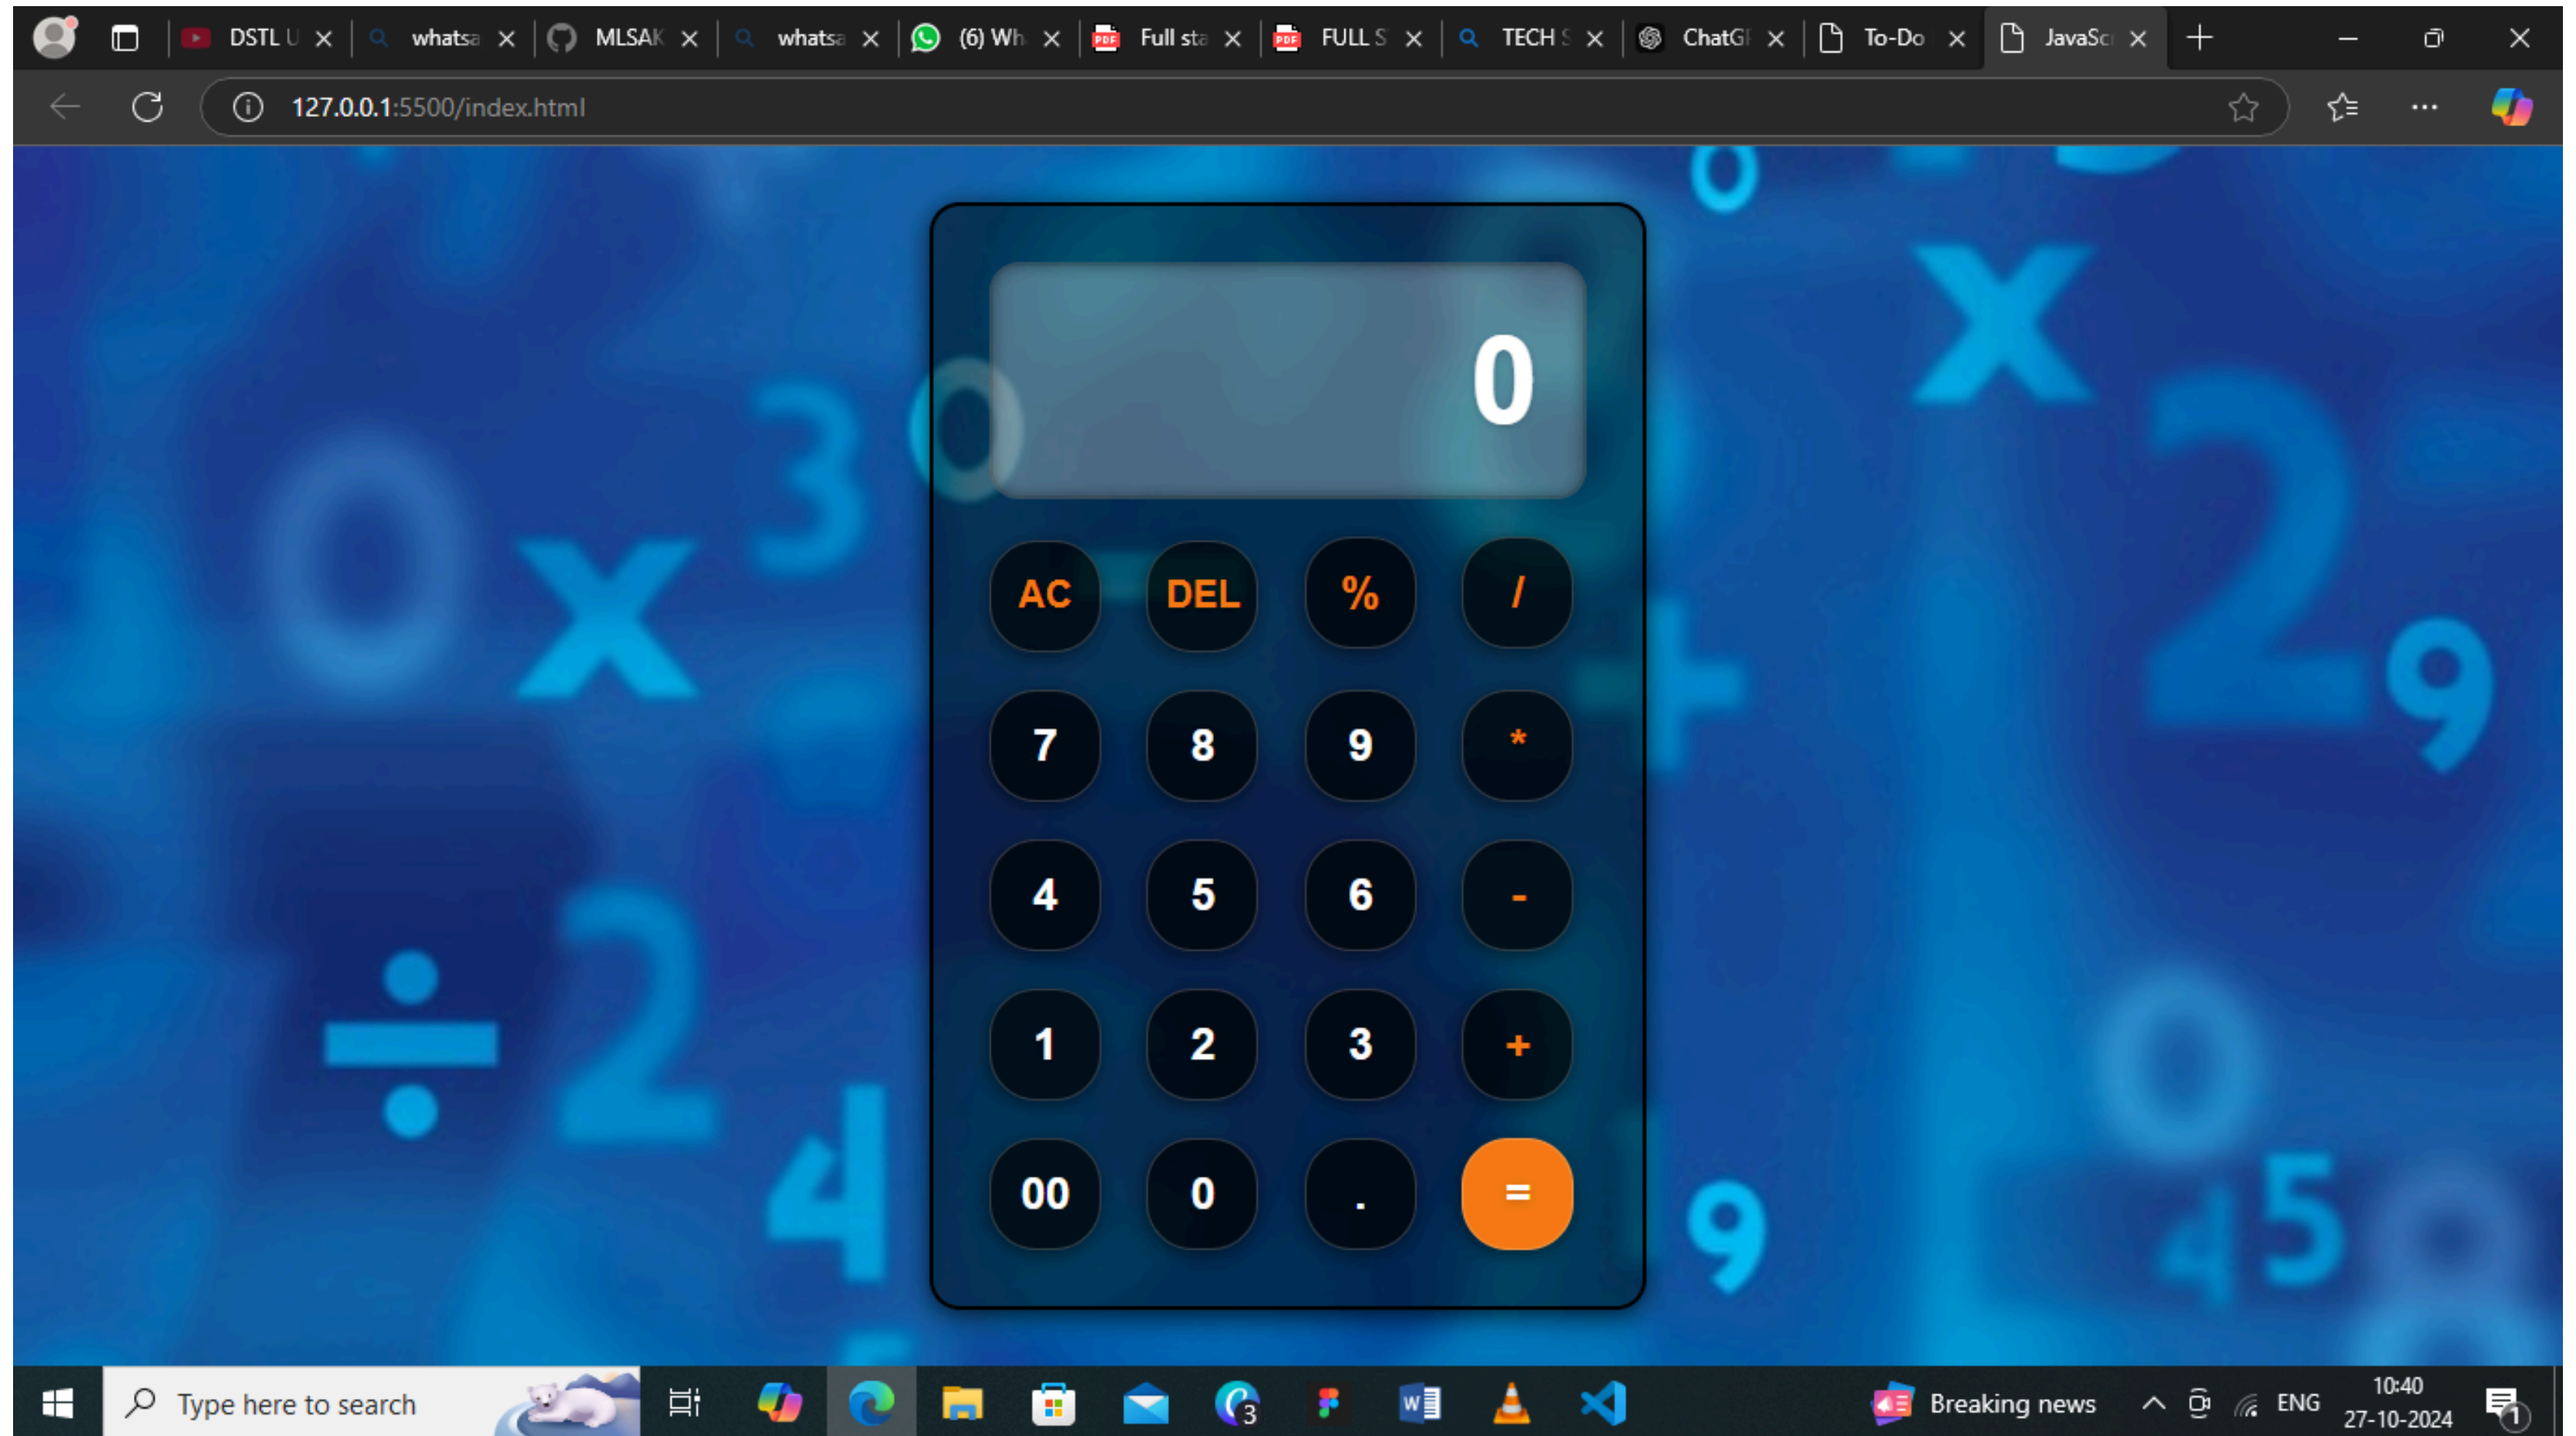

Take your productivity to the next level with our simple To-Do List app!

Here's what makes it special:

-  Add, Edit, and Delete Tasks – Create tasks with a single click, edit them anytime, and remove them effortlessly when completed.
- ✓ Mark as Completed – Check off tasks as you finish them, keeping your list clean and motivating.

Ready to streamline your workflow? Try it out and boost your productivity.

Intermediate Project : Simple Calculator Using Javascript

JavaScript Calculator Features!

Here's what it offers:

1. Basic Math Operations: Perform addition, subtraction, multiplication, and division seamlessly.
2. Real-Time Calculations: See results instantly as you type.
3. Responsive Design: Works perfectly on both desktop and mobile devices.
4. Clear & Reset Options: Easily clear single entries by click on DEL button or reset the entire calculation by click on AC button .

Perfect for quick calculations and great for learning JavaScript fundamentals!
